

## READOUT STATION

# XORAYA DATACUBE-N1

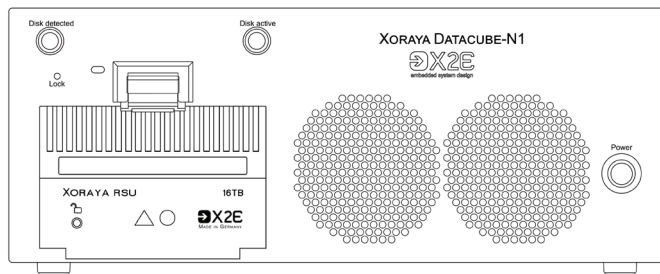

The XORAYA Datacube-N1 is a one-slot readout station for XORAYA Removable Storage Units.

## PRODUCT OVERVIEW

### Description

The XORAYA Datacube-N1 is a fast readout station for XORAYA RSU storage devices as used by the XORAYA N8000/N16000. It is equipped with one slot and allows data transfer up to 10 Gbit/s to a terminal or PC. For this purpose there are 2x 10GBase-T interfaces on the back. Control and data transfer are possible on all interfaces.

### Product Highlights

- ✓ Fast readout station for 1x XORAYA RSUs
- ✓ Up to 10 Gbit/s download speed
- ✓ Stand-alone and intuitive usability

### Technical Data

All important technical data of the XORAYA Datacube-N1 at a glance:

Hardware	Download rate	Up to 10 Gbit/s
	RSU slots	1x
	External operating voltage	12 V
	Temperature range	0 °C to +40 °C
	Dimensions	144 x 373 x 363 mm
Interfaces	Download	2x 10GBase-T
	Other	1x 12 V Power Connector
